To Whom It May Concern:

It is with great pleasure that I share with you the following information regarding a workshop presented in our school district by Dr. Nathaniel Williams. The retreat was conducted over the summer and it involved over forty staff members, including all administrators and administrative assistants. The theme for the workshop was teamwork. Due to retirements there were several new administrators creating the need for such a workshop.

The experience provided by Dr. Williams was absolutely incredible. He presented key information through the use of technology and supported that information with "real life" situations that the staff was able to relate to. Each segment was followed by hands-on activities completed in small groups. Staff was arranged in various groups throughout the day which allowed them to become familiar with other employees that they would not typically interact with. The activities were enjoyable but extremely relative and useful. I have received countless emails, phone calls and memos complimenting and praising the workshop. In my thirty-three years in education this experience ranks as one of the best professional development opportunities I have had the pleasure of participating in.

I would recommend Dr. Williams and his company for professional development without reservation. His level of professionalism, thoroughness, and attention to detail will allow your staff to grow and develop both as a group and on an individual basis. He is truly one of the best!

Sincerely,

E. J. Wasilewski

E. J. Wasilewski, Ed.D.
