This is a letter of endorsement for Dr. Nathaniel J. Williams.

Dr. Williams recently spoke to the students at Loysville Youth Development Center, a Correctional Facility for Juvenile Delinquent boys in central Pennsylvania. His message was outstanding and just what the students need to hear. He spoke about making good decision and the importance of education as the foundation of self reliance. His presentation kept the students engaged and involved. He left the students wanting to hear more and longing to discuss how this information applies to their lives. He left materials to enable Teachers to elaborate in the classroom. Dr. Williams had an outstanding assembly and I definitely plan to have him back.

Sincerely,

Clyde W. Caldwell Jr.
